

24-25-26 November, Asia-World Expo Hong Kong

CINEV CONFERENCES & EVENTS

China International New Energy Vehicle show is an event gathering the whole chain of Smart Mobility during 3 days of networking and business opportunities. Participants from Europe and China are expected at the Asia-World Expo Hong Kong in Hong Kong 24-25-26 November 2015.

The purpose of this show is to create connections between two continents, Europe and Asia, and to gather public and private decision makers in order to create new business opportunities.

On top of that, CINEV hosts the « EU-China Smart Mobility City Award », a contest highlighting the positive initiatives of cities regarding sustainable mobility.

CINEV will also feature a rich program of conferences to explore industry trends and connect with your future partners.

3 days of...

Exhibition: 12 000 sq. m. of exhibition to discover the latest innovations

Forum: debates between top officials, leading scholars and top-of-the-range industrials based on business cases and real example of implementation

EU-China Smart Mobility City Award and gala dinner: rewarding cities for their commitments and achievements regarding eco-mobility

Networking: gathering with all the value chain of green transportation, organization of business meetings in the VIP area. Organizers will help identify prospects and do business matching.
